

ENCODERS: Incremental, Absolute, Multi-Turn

The best names in encoders and resolvers in the business. Heavy duty and rugged

High-quality **encoders**, excellent service and expert technical support. ISO 9001:2015 Certified inventors of the original Cube encoder, the first to use Opto-ASIC technology, the first to use a flexible mount for hollow shaft encoders, and the first to produce an encoder designed to withstand the demands of high-temperature motor applications, to mention just a few. EPC's product line today includes a full array of mechanical package styles and electrical formats to address the multiple challenges of today's varied applications.

Remote Control

We represent most if not all the major manufacturers in the remote control world. We specialize in specifying the best in class controllers and most innovative solutions and prices for single as well as OEMs appreciate. If you need it, ask!

Meters, Counters, Encoders. high-precision measurement tools. Every product is customizable – we're experts in custom product development! We work closely with customers through design and manufacturing to ensure that the final product stays true to the vision and the budget.

Timers, Counters, Relays, and a large inventory and repair of all modules and software for the Eagle Signal products. Counters: Totalizing & Predetermining, Batch & Add-Subtract for production, monitoring and control. Proximity sensors and Ultra Precision Switches.

Thermocouples, Wells and Wire. Connectors and Multi Circuit Jack Panels, Programmable Temperature Transmitters, etc.

Intelligent Digital BarGraph Meters, Transformer Temperature Monitoring and Control Analog Meters, Panel Meters, Current Transformers

Full service company that has driven innovation with the acquisitions of company leaders offering remote control for any application as well as rail leaders. Dynagen control panels set the standard

Leaders in Quality Pressure and Temperature Instruments high end electronic and mechanical measuring instruments. Bourdon USA is the original Pressure gauge and our premium gauge line , thermometers, and accessories. WGTC offers a full line of industrial thermometers, bimetal thermometers, and thermometer accessories. PIC Gauges offers a high-quality, competitively priced line of pressure gauges, thermometers.

We Measure, We Control, We Record

Excellence in AUTOMATION for a wide range of market segments and applications  
 · Process Control and Indication · Sensing, Conditioning and Transmitters.

Precision Digital Corporation is a manufacturer of a comprehensive line of digital panel meters, displays, and control instrumentation utilized primarily in industrial processes worldwide.

Test/Monitor/Control: Pressure, Flow, Air Velocity, Level, Temperature and Humidity. Data Acquisition. Valves. W.E. Anderson, LOVE and MERCROID

Gems Sensors is a global supplier of sensing and control solutions. Gems designs and manufactures a broad portfolio of liquid level, flow, and pressure sensors, miniature solenoid valves, proximity switches and integrated fluid management solutions. From agricultural equipment to locomotives to medical devices.

Automation Drives & Controls

Motor starters, motors

HMI displays to suit any application. Robust and priced well, the product offering here is often private labeled for OEMs worldwide
