

CONCRETE PUMP REMOTE CONTROL

TYRO™ PUMP BOSS™ MUSCA AND PYXIS PACKAGES

EASY TO USE, INSTALL AND CONFIGURE

Tyro™ Musca, Pyxis, and Aquarius deliver rugged, user-friendly wireless control specifically designed for concrete pumping applications. Each transmitter combines heavy-duty construction with intuitive operation, ensuring operators can work confidently in tough job-site conditions. With waterproof housings, tactile keypads and ergonomic designs, Tyro Pump Boss Packages are built to last while remaining comfortable for all-day use.

Tyro Pump Boss systems can be integrated with pumps from OEMs and distributors such as TA, Transcrete, Reinert, Schwing, Putzmeister, Olin and Mayco.
