

VisiTek™

600 SERIES

ASSET TRACKING AND MANAGEMENT DEVICE

HIGHLIGHTS

- Field replaceable batteries provide years of battery life
 - Ruggedized and weatherproof enclosure for use in harsh environments
 - Compact for discreet mounting on equipment
 - Powered by the RemotelQ™ cloud-based monitoring software
 - 24/7 GPS tracking with geofencing enables equipment visibility from anywhere in the world
 - Smart technology reduces costs associated with lost equipment or inefficient utilization
 - Can be provided as a customized, private-labeled solution
-

FEATURES

- Multi-year battery
 - IP67 rated enclosure keeps out dust and water
 - Text or voice alerts when equipment enters or exits user-defined geofence boundaries
 - Accelerometer allows device to report on movement or engine run events
 - 4G LTE - M cellular communications
 - GPS location tracking with cellular and Wi-Fi triangulation backup when equipment is indoors or under cover
 - RemotelQ is a proven monitoring platform with over 20 years of satisfied customers
 - End-to-end data encryption for secure transmission and storage
 - User-friendly graphics and intuitive maps help manage and track equipment in RemotelQ
 - Mobile-friendly cloud interface for use on smartphones or tablets
-

MARKETS & APPLICATIONS

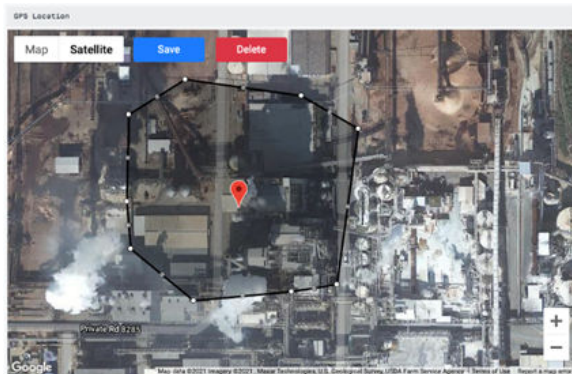

- Mobile equipment operators
 - Mining operations
 - Agriculture operations
 - Rental equipment operators
 - Oil and gas
 - Compressors, generators, engines, motors or pumps
-

TECHNICAL DATA AND SPECIFICATIONS

Enclosure	IP67 rating
Dimensions	4" x 4" x 1"
Weight	8 oz
Location services	GPS, Cellular and Wi-Fi
Battery	4 AA lithium batteries, field replaceable
Operating Temperature	-30°C to 60°C
Humidity	0% RH to 100% RH
Motion Detection	3-axis accelerometer
Cellular Modem	LTE CAT - M; multi-band for worldwide use
Store & Forward	Hundreds of location updates can be stored in device memory when out of cellular coverage, then transmitted to cloud when service is restored
Monitoring Software	RemotelQ™ subscription required
Warranty	One-year warranty

RemotelQ tracking with geofencing
